

## End User Statement for Export Compliance

**End User Name:**

**End User Address and Country:**

**End User Website:**

Please indicate in the spaces provided whether the end user identified above is engaged, directly or indirectly, in any of the following activities:

### **Nuclear End-Uses**

- (a) Designing, developing, fabrication or testing nuclear weapons or nuclear explosive devices.
- (b) Research, development, design, manufacture, construction, operation, or maintenance of nuclear reactor, critical facility, facility for fabrication of nuclear fuel, for conversion of nuclear material from one chemical form to another, or separate storage installation, or
- (c) Designing, construction • fabrication or operating the following facilities, or components for such facilities:

(1) Facilities for the chemical processing of irradiated special nuclear or source material:

(2) Facilities for the production of heavy water:

(3) Facilities for the separation of isotopes of special nuclear material; or

(4) Facilities for the fabrication of nuclear reactor fuel containing plutonium.

Yes\_\_ No \_\_

### **Missiles**

- T (All)--Rocket systems (including ballistic missile systems, space launch vehicles, and sounding rockets) and unmanned air vehicle systems (including cruise missile systems, target drones, and reconnaissance drones) "capable of" delivering at least 500 kilograms payload to a range of at least 300 kilometers.

Yes\_\_ No \_\_

### **Chemical and Biological Weapons**

Designing, developing, production, stockpiling or using chemical or biological weapons, or precursors.

Yes\_\_\_\_\_ No\_\_\_\_\_

**Specific Use Contemplated by End User** (Supply Details of Application)

Please check whether the end application is Commercial \_\_\_\_\_ or Military \_\_\_\_\_.

SPECIFIC END USE: -----  
-----

Please specify how these products will be incorporated or used in the end-product(s) or system(s). Be specific: provide the detailed description of the platform and/or application, as well as a detailed description of the function/purpose of the parts in the system or application.
